GitHub: https://github.com/empipio
Portfolio: https://empipio.github.io/h2-portfolio/

Currently retraining as a web developer following 7 years working as a small animal veterinary surgeon and bringing a whole host of transferable skills with me.

Technical Skills
Frontend: HTML5, CSS, JQuery, Javascript, Bootstrap,
Backend: Node.js, Express.js, Handlebars.js, mySQL, Sequelize

Projects
Project One: Junior Dev Hub
Repo: https://github.com/LanguageBytes/Junior-Dev-Job-Search-Engine
Deployed: https://languagebytes.github.io/Junior-Dev-Job-Search-Engine/
- Job search app aimed at junior developers looking for their first job
- Collaboration with two other teammates as a project to conclude phase 1 of coding boot camp. Main responsibilities were working with the APIs to get relevant job data and rendering it to the appropriate page.
- Tools/Languages: html, css, Tailwind, javascript, Reed APIs (job search/job details), Google Maps API

Project Two: Creator Labs
Repo: https://github.com/BavKudhail/creatives_platform
Deployed: https://peaceful-crag-60795.herokuapp.com/
- App designed to connect with fellow creatives to share skills and collaborate on exciting new projects
- Collaboration with two teammates as a project to conclude phase 2 of coding boot camp. Responsibilities were predominantly backend and included setting up the database, rendering information to the page via handlebars and building the logic to limit how many creatives could join each team.
- Tools/Languages: html, css, javascript, node, express, mySQL, sequelize, handlebars, socket.io, AWS

Tech Blog
Repo: https://github.com/empipio/Tech-Blog
Deployed: https://tech-blog-empipio.herokuapp.com/
- CMS-style blog site where developers can publish their blog posts and comment on those of other developers as well.
- The app follows the MVC paradigm in its architectural structure, using Handlebars.js as the templating language, Sequelize as the ORM, and the express-session npm package for authentication.

- Built alone from scratch, so responsible for all aspects of the project.
- Tools/Languages: html, css, javascript, node.js, bcrypt, connect-session-sequelize, dotenv, express.js, Handlebars.js, express-session, mysql2 and Sequelize.

Work Experience

Vet4Pets
August 2016-December 2021
Veterinary Surgeon
Alsager, Cheshire
- Majority sole charge work as single vet leading a team of vet nurses and care assistants
- Fast paced, emotionally charged environment requiring the ability to "think on my feet" and make decisions accordingly
- Wide and varied caseload requiring excellent problem solving skills

Charter Veterinary Surgeons
December 2014-June 2016
Veterinary Surgeon
Biddulph, Staffordshire
- Part of a large team of vets and vet nurses: an exceptional team player
- Regular on-call work demonstrating ability to thrive under pressure

Education

University of Birmingham
June 2022
Full Stack Flex Boot Camp

Royal Veterinary College, London
July 2014
BVetMed (hons)

Fallibroome High School, Macclesfield
July 2008
A-levels: A in biology, chemistry and maths
AS-levels: A in psychology and sociology

Fallibroome High School, Macclesfield
July 2006
GCSEs: 8 grade A*-B
